"Deficit" Means Trouble

Last week I discovered that a lot of people do not know what the term "deficit spending" means. Just to satisfy a curiosity I asked a number of persons about it and although some had a vaguely correct idea, only a very few had a clear understanding of the term, and not more than a handful had an awareness of the full implications of a deficit financing policy in government.

Some of the people with whom I discussed it said they had been dodging the formation of a personal opinion on whether government deficit financing was good or bad because they said it carried only a "hazy meaning" in their minds. When they'd heard the term spoken or had even it in print they'd formed the habit, they said, of mentally avoiding it.

Way To Bankruptcy

Deficit financing in the simplest definition means spending money you haven't got, operating beyond your means, spending borrowed money. If you earn \$100 a month and wish to spend \$150 a month, you can only spend the \$100 each month and giving the lender your bill or your personal note agreeing to repay the amount plus a set rate of interest. Your indebtedness mounts each month and so does your interest payments.

If you continue to borrow the \$100 each month the interest each time adds to your income and the debt itself becomes bigger and bigger. The result, in time, is bankruptcy if repayment cannot be made. The result appears a very easy way to get into a financial jam. The result appears a very easy way to get into a financial jam. The result appears a very easy way to get into a financial jam.

It Grows And Spreads

American citizens have their whole future at stake in the issue of whether their government should practice deficit financing in good times as well as bad. The practice already has become epidemic. Those figures published in the Congressional Quarterly show that not only has our Federal government operated on borrowed money in 10 of the past 10 years but 15 of our 48 states are being faced with the same fate. That money cost paid this increase last year.

The practice if prolonged by the Federal government can have but one result: bankruptcy. The government is already defaulting on its obligations of paying interest and principal on its outstanding bonds. A default would mean a default on the part of the Federal government. The result would be a default on the part of the Federal government. The result would be a default on the part of the Federal government.

The March Party

New Americans apparently are aware they are paying more than five times as much in taxes today as they were in 1913. The result is a default on the part of the Federal government. The result is a default on the part of the Federal government. The result is a default on the part of the Federal government.

There would come a default on the part of the Federal government. The result is a default on the part of the Federal government. The result is a default on the part of the Federal government. The result is a default on the part of the Federal government.

Appreciation Works Wonders

G. M. WILES, New York City, told me a story the other day about his sister who unwittingly used the most valuable technique in accomplishing her aim. No doubt you, too, have unwittingly used just the right method in persuading someone to do what you want done. Often, intuition or instinct prompts the right method.

Miss Wiles is on the staff of the fine arts department of the University of Chicago. Among her duties is that of staging exhibits. But she doesn't always find exactly what she wants for her exhibits, nor can she always persuade the owner to let her have the art she wants when she does find it.

This was the case this year. She wanted to build her exhibit around three unusual pieces of sculpture. The university owned copies of all three of these pieces, but a copy isn't the same thing as an original and it would lend ever so much more importance to the exhibit to display originals.

The sculptor is an elderly man, and no doubt over the course of years had not found it wise to let his originals be on exhibit. Or so it would seem, for he didn't let kindly to the request.

But Miss Wiles has that all-important trait, perseverance. She decided to go to see the artist in person, so she went all the way to Detroit, and arriving there made an appointment with the artist. Before the interview, she was shown through the artist's studio and was thrilled by what she saw. Finally came the moment for her "five-minute" interview.

Five minutes? Why, that interview lasted two hours, with the result that the three pieces of sculpture she wanted were loaned to her, and the artist himself appeared on opening day with three of his friends. Maybe that wasn't a triumph for Miss Wiles!

What had she done? She had evidenced genuine interest in that artist's work; she had been a good listener and had encouraged him to talk about his work. That was all. And it was enough! Appreciation works wonders, miracles.

THIS IS IN Washington

ONE OF THE MOST important pieces of news in the Congress this past week is the decision of the House Ways and Means committee to levy a corporation tax to replace the loss because of excessive tax cuts.

President Truman had threatened to veto the tax bill containing approximately a billion-dollar cut to excise taxes under the loss was effect by new taxes from some other source.

In meeting the President's conditions the ways and means committee apparently has written an entirely new corporate tax bill which would impose a 21 per cent normal tax on all corporation earnings, plus a 20 per cent surtax on income in excess of \$25,000.

Actually the bill, according to its sponsors will hit only corporations earning more than \$147,000 a year. Small corporations making up to \$15,000 would be taxed as at present and firms earning between \$15,000 and \$147,000 would actually benefit from a tax cut.

In the meantime, politics continued to play its hand in most every other section of Congress, with the exception of legislative approval of two senate committees of \$1,250,000 for the arms aid program to nations in the Atlantic pact opposing communism.

Vice-President Alben Barkley took an unprecedented action when he questioned the motives of 11 Republicans who are treating the American case by repeated despite the action of two grand juries which held there is no room for indictment. Senator Barkley asked the question that there is "grave doubt" of the wisdom of using the senate as a grand jury to investigate political officials.

The charges of Sen. Joseph McCarthy of Wisconsin, which are daily met by counter-charges and denials from the state department, and which have resulted in coming tangible, are in the hands of the senate committee headed by Senator Tydings of Maryland. Although the committee seems to be inactive, in the light of other senate committees in the recent past which used the Hollywood technique, the Tydings committee nevertheless is cooperating fully with the FBI and the department

LOW DOWN FROM HICKORY GROVE

I have trouble getting my mind off the conversation I had with you last night. You were even more a certainty as to one or were you, I say, my certainty, is universal. President. How on earth can a person be smart enough to permit a payoff on the securities that the payoff would be a mockery, a mere fraction of the securities' original value and the value of savings, insurance, annuities, wages, pensions, etc., would be. The gradual inflation which is in evidence with any prolonged deficit financing brings the same and result but the damage that is done appears. It stacks up on you. Yes, "deficit financing" means trouble if long continued.

ABOVE THE HULLABALOO

BY LITTLE HULL
CONCENTRATION CAMP AMERICAN STYLE

In a "hot" war we can whip the Russians and all their allies—even if their allies joined them wholeheartedly. This of course presumes a "landing place" on the European continent.

But how can we win the present "cold" war under the conditions which now exist? Every week seems to turn up a new traitor who, with apparently the greatest of ease, obtains vital data which he hands over to the Kremlin's agent.

After long, expensive trials the traitor is given a few years in jail, or a small fine, and becomes a hero in the eyes of the half million dumb clucks, and "unfortunates" who follow the Red flag in this country. Our most important secrets become the property of our deadly enemies at small risk to either the traitor or the agent.

The writer is not in a position to know whether we have obtained one single military secret from the Russians—but doubts if we have. The penalty for treason there is torture and death; here it is a slap on the wrist.

Why don't we outlaw the Communist party and stick every member we catch in a concentration camp until the hot or cold war with Russia is finally settled one way or the other?

There are many known members—though these are relatively unimportant. But the FBI probably has the names of thousands in the underground; and these are important. If we wait until the Communies drop a bomb on Washington and New York, they will commit incalculable sabotage and possibly wholesale murder.

There is the old Communist-fostered hack about driving them underground and making them harder to watch. This is "planted" rubbish! Recent disclosures have proved to even the most credulous, that the real arm of the Party always has been underground. To so who are publicly known are just "window dressing."

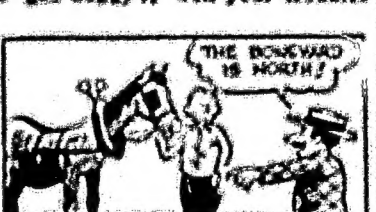

The threat of the concentration camp will cause the sincere resignation of most of Mr. Stalin's fellow club members in the USA.

"I REMEMBER"

BY THE OLD TIMES

From Charles Mohr to Mrs. Mary Stewart: "Here are some 'dated' expressions popular years ago, as per your suggestion in last week's 'I Remember' column: 'What's the matter with Kansas?' (1935), 'Go chase yourself' (1933), 'Who's lousy now?' (1931), 'Snug as a bug in a rug' (1929), 'Ain't you the bestest?' (1910), 'He that spareth the rod hateth his son' (1930 B.C.), 'Happaburles' (1931), 'It fits him to a T' (1929), 'So I took the 50 thousand . . . ' (1928), 'See any green in my eye?' (1926), 'Applesauce!' (1927), 'Go West, young man!' (1931), 'And how!' (1929), 'Skedaddle' (1921), 'You know me, Steve' (1921)."

From Mrs. Mary Stewart of Chicago: "Here are some more once-popular phrases, remembered at random: 'The beavered is north' (to a person so old fathered as to use a horse instead of a 'gas buggy'), 'Tell your troubles

to a cop.' So's your old man!', 'You're darn tootin'! 'Where's Elmer?', 'Stop a minute, the fire's out!', 'How old is Amy?', 'Keep your shirttail in!', 'You and what army?' and 'Where do we go from here, boys?' I don't think the slang terms of kids today are as colorful or original as those of yesterday's youngsters."

From Gardner Campbell of Wakefield, Mass.: "I remember when the only forms of entertainment were local minstrel shows, dramas with local casts and programs of singing, piano selections and 'free hallions.' Outside talent such as lecturers, singers, etc., were brought in by organizations and churches and the free-lance lecture course really flourished in those days!"

For Safe Keeping
A House Appropriations Committee study disclosed that in one year the Federal Bureau of Internal Revenue printed 550 million tax forms and 115 million instruction sheets to supply 47 million taxpayers. Hundreds of millions of such forms, long out-dated and no longer useful, were found stored in a lumber building.

VIRGINIA BOWS TO B. A. C. IN TWILIGHT CONTEST

Last Thursday evening the Bethel Athletic Club journeyed to Virginia to incur a 5 to 2 decision over the hometown pastimers.

The Virginia aggregation scored a quick run in the initial frame on a pass to R. Brown, followed by hits by Marlineau and Kozal. After Cote struck out to retire the side, the local team did not threaten again until they scored on a run in the final frame.

The Bethel A. C. tied the score in the second on a double by Al Smith and H. Berry's single. The tie-breaking tally was scored in the next frame by Archie Young after singling, moving to third as Larry Sanders singled, and scored as first baseman Kozal erred in attempting to retire Pete Baker. The eventual winning run was scored in the next inning when, with two down, Brown got an infield hit, stole second, and scored on Stanley Merrill's sharp single to right.

The outstanding play afield occurred in the fourth when, after Cote reached on Sanders' error at short, Hallie bounced one to Berry's left at third, which "H" grabbed, pegged to Burt Rolfe at second for one out, and Burt, in turn, flipped the ball to first baseman Smith for a double play.

B. A. C. HAS BIG INNING TO BETHEL HUMPHORD POINT, 13-12

The Bethel Athletic Club won their sixth game in seven Oxford County League starts, by squeaking by Humphord Point, 13-12, at Thurston Field, Sunday afternoon.

Behind 10-4 at the end of the 7th frame, the A. C. nine took advantage of the enemy hurler's generosity and accepted five bases on balls, put together with four hits and a fielder's choice, to counter nine times before Burt Rolfe was called as he tried to steal home.

"Cag" Bennett and Burt Rolfe knocked balls over the fence for home runs and Larry Sanders belted a drive into left field that B. Robinson had difficulty capturing in foul territory, while Larry circled the bases. "H" Berry, Archie Young, and Sanders each belted a double to add the cause.

The fielding feature of the day came in the first inning when P. Robbins drove a liner deep to left field which Burt Rolfe trapped against the fence to snare for the out, and then threw to Young at second base to double up B. Robinson who had wanted to open the game.

On Sunday, July 9, the A. C. plays at Locke Mills and next Thursday evening they tackle the Virginia team at Thurston Field.

A. C. HUMILES RAIDERS, 16-1 BEFORE HOLIDAY CROWD

The heavy guns of the Raiders were reduced to sub-caliber or effectively spiked on Tuesday afternoon, July 4, while the B. A. C. ordinance seemed in perfect order and well supplied with ammunition of extremely high potency when the two outfits tangled in their first OCL meeting. The B. A. C. won 16-1.

The Raider sluggers were completely baffled by Archie Young's speed and slants while the B. A. C. swatters took kindly to the offerings of both Bailey and Buker, smashing out 15 safeties for a total of 22 bases.

The single Raider tally came in the first inning when Willis Coolidge advanced to second on Berry's fumble of Bill Robertson's grounder, stole third and rushed to the plate on Young's lone wild pitch of the afternoon.

But four Raider batsmen became baserunners thereafter. One starred as the corps delect of a double killing, the others being marooned.

The next meeting of the teams will be on Thursday evening, July 20. The Athletic Club goes to Locke Mills next Sunday while the Raiders will engage Bryant Pond at Thurston Field.

Official Hearing
The extent to which surplus to stock of stock are built up by some Federal agencies was recently pointed out to the House Appropriations Committee by J. J. Lamm, General Services Administrator. He said one agency had a supply of trading cloth which would last them 9 years, enough fluorescent light tubes to last 90 years, sufficient ruled filter paper to last 100 years and a stock of loose leaf binders which would last them 247 years.

RAIDERS SHUT-OUT LOCKE MILLS, 16-0

The Bethel Raiders applied a beautiful coat of kalsomine to the Locke Mills aggregation at Thurston Field on Thursday evening and collected a total of ten runs for themselves during the five and one-half innings of play.

The visitors nearest approach to scoring came in the first inning when, after Milliken had grounded to first and Hazelton fanned, Stan Seames singled to left, Bill Seames poled one into center advancing his predecessor to third. The chance for a run seemed good when Ray Seames smashed a Bailey fast ball toward right field about hard enough to start the seams but Glenn Witter seemed to be in a favorable spot to smother it for the final out.

The succeeding fifteen men to face Bailey were retired in order, abt, including the last four by the strike out method.

The Raiders combed Parker's servings for 10 safeties aggregating 17 bases, premier slicker being Bill Robertson with two home runs and a single.

All in the Game:
A five-man American track team set two Scottish marks recently—129-yard high hurdles and 100-yard dash. Fred McCarnan, Jr., Sharonville, Ohio, captured the Ohio handicap trapshot title after hitting 23 of 25 extra targets to break a tie. The S. E. C. voted against live television at any conference football games, but will let movies be taken for televising later. Tony Bettenhausen took the Rex May's memorial race at Milwaukee, making the 100 miles in one hour, 16 minutes, 22.57 seconds. Darling Knute Rockne's reign, Nebraska defeated Notre Dame more times than any other team—three. Lou Gehrig was born in June, hit four consecutive homers in June, and died in June, 1911. When Babe Ruth set his record of 54 homers in 1927, September was his most powerful month (17 homers). German Davis cup player, Gottfried von Cramm, banned from competition by the Nazis, has started a comeback. A herd of 10,000 horses are used to cover all the base balls manufactured in one year.

RAIDERS SCORE 12-4 VICTORY AT PERU, SUNDAY

The Raiders invaded Peru Sunday afternoon and captured the long end of a 12-4 score after a full nine inning session of mildly exhilarating but slightly contentious baseball.

The Peruvians outbit the conquistadors by a slight margin but were prevented from capitalizing on this advantage.

Solly Morgan, the Raider starting pitcher, had the Peru players at his mercy until weakening in the fifth to be replaced by Buker. Bob proved adequate in the relief role and although hit fiercely was air tight when the situation seemed to demand a steal nerve and skillful manipulation of the Spaulding apple.

Bob Mills and Clayt Crockett speared everything that came their way in the outfield with a finesse definitely marking them as stars with a high magnitude rating. Bob's s

THE MIDDLES By Bob Karp

CHARLES DREW, FRYEBURG FIRST FARMER TO FINISH

On June 25, Charles Drew of West Fryeburg had all his hay cut and in the barn, and his pasture plots clipped and the surplus growth stored for winter roughage. Mr. Drew operates a one-man dairy unit in the Town of Fryeburg - milks around 12 to 15 cows. Mr. Drew's roughage, cut at an early age of maturity, will afford a very palatable and highly nutritious roughage for his livestock next winter, and his second crop of ladino clover has an excellent start already which can be used later in the season for supplemental pasture during July or August, or harvested for a second cutting of hay.

ATOMIC BOOKLET TO BE READY ABOUT AUGUST 1

A description of just what happens when an atomic bomb explodes will soon be available to the public in an official Government document now being printed at the Government Printing Office. Entitled "The Effects of Atomic Weapons," the book will be released about August 1, and advance orders may now be placed with the Superintendent of Documents, Washington 25, D. C., at \$125 per copy. All proceeds from the sale go to the Government.

Of primary interest to persons engaged in civilian defense and the building trades, the book contains previously unpublished details on atomic explosions. The damage caused by the atomic bombs in Japan is examined with estimates of probable effects on American cities. The types of buildings which best withstand the shock and the hazards of various radiations are described and illustrated.

The book was prepared by the Atomic Energy Commission from non-confidential scientific and technical information. It is the most informative and authoritative book on atomic weapons which can be made public and is the most significant document to be published since the Smyth Report.

NEW MILL SITE PROGRESSING AT LOCKE MILLS

Good progress is being made in preparing the site of the new mill of the E. L. Tibbets Spool Co. at Locke Mills. During the past two weeks 15,000 yards of gravel have been moved. Junk trucks will begin soon to clear up the ruins of the old mill.

SUMMERIZE YOUR FURNACE

Have your furnace SUMMERIZED - cleaned, inspected and repaired. And do it NOW . . . if you want to reduce summer furnace damage. Yes, we mean SUMMER damage, because that is when soot and water - basement dampness and moisture from spring rains - combine to form sulfuric acid. This acid corrodes and rusts your furnace and its smoke pipe.

NOW we can put your furnace in condition to combat summer-time rust and corrosion. NOW our special low rates are in effect. Call us right away!

ECONOMIC HIGHLIGHTS

Happenings That Affect the Future of Every Individual—National and International Problems Inseparable from Local Welfare

The American Communists, have gone underground with a vengeance, are attempting to weaken the nation through propaganda, and are training spies whose job is to bore inside the Government and to steal our top military secrets—particularly those concerning atomic weapons, jet planes, and plans for the national defense in event of war. That, in essence, is what FBI Director J. Edgar Hoover recently told a Senate committee.

Just how large is this party whose loyalty belongs to a foreign power? According to Mr. Hoover, there are 54,747 actual Communist party members within the U. S. at the present time, most of whom are in the concentrated centers of population. New York State alone contains about half of them. It is likely that for every party member, there are 10 sympathizers who are ready, willing and able to do the party's work. So, he said, "There is a potential fifth column of 540,000 people dedicated to this philosophy."

Since the trial and conviction of the 11 members of the party's Executive Board, major organizational changes have been effected. Mr. Hoover continued. The trend has been toward decentralization in order to eliminate the dangers that arise when large numbers congregate, the number of Communist Party clubs has been almost tripled. No membership cards were issued last year, and the maintenance of membership records has been discontinued. A courier system has been established to protect confidential communications. Secret printing plants have been set up. Leaders are being selected for the underground. A thorough and elaborate system has been devised for making certain that each member is loyal to Communism and will remain so.

According to Mr. Hoover, the party has endeavored to exploit youths, veterans, civil rights, foreign nationality, the press, radio, television, the motion picture industry, educational, political, women, and labor groups. Forty eight per cent of the membership party is in the basic industry of this country. Communist efforts toward infiltration have been intensified in basic industries vital to our security, such as steel, heavy machinery, mining, communications, transportation, the electrical industry and the maritime industry. The Communists have

Nobody's Business

A most pleasing event was the program arranged for the young people on July 4. It is safe to say that few of the children felt the lack of fireworks, while many of the older people enjoyed the quiet day. The ball game featuring our popular local teams was big attraction in the afternoon, and altogether the day's activities were a pleasing contrast to the loud, dangerous and expensive observances of the past.

The enthusiastic support and attendance at the evening get-together recalls the bazaar of last year. We understand plans are in the making for a second bazaar. In a few weeks, details of which will be outlined soon, we hope.

Why not have signs to show the location of Thurston Field? This baseball park, which was revived last year and improved this spring is growing in popularity. Probably visiting teams and their followers would appreciate directional labels. The ski tow's location is still indicated on Main Street although activity there slumped some time ago.

THE COUNTRY PRESS SAYS

Baltimore, Md., Daily Record: "We are inclined to believe that business executives may well consider going actively into politics themselves as a matter of self-preservation."

Bozeman, Montana, Chronicle: "This editor is probably off-side in making any inquiry regarding the billions of I. O. U.'s now piling up in the treasury department at Washington. As long as no one in Washington seems to pay any attention to the growing depth of moneyless paper, this old fellow is probably unnecessarily disturbed."

Jefferson, Ohio, Gazette: "No one has any moral right anywhere or at any time to keep others from working."

Santa Fe, N. M., New Mexican: "The continuing growth of the vast power of the President in granting benefits to large groups of voters makes it possible for the President to perpetuate himself in office—not by meritorious service but by patronage and favor."

Clarlin, Kansas, Clarion: "Payments of Social Security Old Age benefits . . . are not being paid out of the money that was paid into the government treasury in payroll taxes. That money is gone—used up by the federal spenders. All that represents it is government bonds issued for the social security money."
